Frontend Developer Interview Scorecard

Candidate Name: Role Interviewed: Interviewer: Date:	
Dimensions	
• Growth Strategy —	Score (1–5):
1-2: Cannot define t	arget growth metrics or prioritize initiatives; proposals lack measurable goals. 3:
Defines clear growth	n goals and a logical prioritization of tactics tied to metrics. 4: Creates
multi-quarter growth	plans with clear KPIs, trade-offs, and resource needs. 5: Anticipates market
shifts, sets a visiona	ry roadmap, and re-prioritizes to maximize long-term revenue.
 Channel Acquisition 	n — Score (1–5):
1-2: Limited channe	I knowledge; cannot explain acquisition mechanics or past performance. 3:
Manages core chan	nels with steady execution and basic optimizations. 4: Designs and runs
multi-channel campa	aigns tailored to segments and creatives. 5: Discovers and scales new high-ROI
channels and consis	stently outperforms benchmarks.
• Experimentation & A	A/B Testing — Score (1–5):
1-2: Rarely runs exp	periments or uses improper controls and unclear hypotheses. 3: Designs
experiments with cle	ear hypotheses, tracking, and basic statistical checks. 4: Runs high-velocity tests
interprets results, ar	nd reliably implements winners. 5: Builds a systematic experiment program that
drives sustained cor	nversion lifts and learning.
• Data & Analytics —	Score (1–5):
1-2: Cannot query a	nalytics or misreads basic funnel metrics. 3: Uses analytics tools to extract
insights, track funne	els, and monitor KPIs. 4: Builds dashboards, segments users, and ties actions to
CAC and LTV. 5: Cr	reates attribution and predictive models that guide strategic growth decisions.
Technical Implement	ntation — Score (1–5):
1-2: Cannot explain	tracking, tagging, or campaign setup; breaks implementations. 3: Manages
GTM, tags, and inte	grations with engineering support. 4: Owns tracking plan, ensures data quality,
and configures mark	keting automations. 5: Implements scalable event taxonomy and end-to-end
automations with mi	nimal engineering help.

ZYTHR

1-2: Poor stakeholder communication leading to delays or rework. 3: Coordinates with product, design, and sales to execute campaigns. 4: Leads cross-functional launches, aligns priorities, and resolves trade-offs. 5: Influences roadmap, secures resources, and drives company-wide adoption of growth initiatives.

 Budget & 	ROI Management — Score	(1–5):

1-2: Loses track of spend and cannot explain CAC or ROI. 3: Manages budgets, forecasts spend, and monitors return metrics. 4: Optimizes channel mix to improve CAC and ROAS within targets. 5: Dynamically reallocates budget to maximize cohort LTV and reduce payback period.
